### DESCRIPTION:

#### March 30th: Let's Talk: Family-School Communication

Families and school both play crucial roles in the development of children. Families and school always want the best for young children, but sometimes their perspectives are different and they may have trouble communicating effectively. Learning how to communicate effectively can help children thrive by providing consistency as well as relationships that are supportive. This workshop will help participants learn strategies to effectively communicate and explore ways to problem solve communication challenges.

**HOW TO REGISTER:** Register in advance at the following link:
